

## **Important Notice for Florida Homeowners**

Significant weather related catastrophes over the last two years have caused record insurance industry damages in the State of Florida. Further, forecasts of more hurricanes in the years ahead have caused homeowners carriers to take steps to manage their exposure to hurricanes in coastal areas, including Florida. As a result, Florida homeowners who do not currently participate in the **Verizon Business Auto and Home Insurance Program** will not be able to obtain new coverage through the program at this time due to new underwriting rules.

Current participants in the **Verizon Business Auto and Home Insurance Program** who hold a Homeowners Insurance Policy in Florida are encouraged to call your carrier and learn of the options that will be presented to you at renewal.

Verizon has expended every available resource and all of our influence with each insurance carrier and no special arrangements or exceptions to the State regulations will be allowed.
